

All My People

plans, to leave and join the band
traverse through fabled lands and make my mark.
starved, confusion waves it's wand,
i am warm and fed and won't move on to lead and fight

all my people go
all my people go
when you live beyond the labels you have worn
all my people go

chained up, were hardly even chained
it's hardly even what i, or who i am
gravestones, my legacy in six notes
with empires or two tires building a conscious glow
grow, grow, all my people go

all my people go
all my people go
when you live beyond the labels you have worn
all my people go

skyways above we look like ants on island
trapped til were told that we can swim, i can
young passing the blame, sweet with fame, til the best is gone

all my people go
all my people go
when you live beyond the labels you have worn
all my people go
when you live beyond the bottle you have grown
all my people go
