

Carolina

Last call, numbing her recent brawl, hanging while the leaves fall, looking to escape
A strong force, hoping she will recourse, the mine fields take the lead horse, it's
patience in this place

I know you will fight it
Til you can see the proof
I know you will find it
When you can speak the truth

She's going, Going to Carolina, going until she finds it, leaning all the way
She's going, Going to Carolina, going until she finds it, leaning all the way

Pass rows of swinging cobs, the tender green, gold flocks of pasture, feels like
canada and friends
How to know I'm right or if this is wrong, is it too soon, too long, to give it all away

I know you will fight it
Til you can see the proof
I know you can find it
When you can speak the truth

You're going, Going to Carolina, going until you find it, leaning all the way
You're going, Going to Carolina, going until you find it, leaning all the way

I know we will fight it
Til we can see the proof
I know we can find it
When we can speak the truth

Going to Carolina, going until we finds it, leaning all the way
Going to Carolina, going until we finds it, leaning all the way
