

Slide

Floating in the landslide
As it hurls me with its' might
Still strong, on the hillside
But I'm fading, in the night

I wake up on the edge
I wake up on the edge
I wake up on the edge, now,
We slide

Hold me, for the last time
You don't need to, it's just fun
Is this wrong, I can see it
Watching games play, in my mind

I wait up on the edge
I wait up on the edge
I wait up on the edge
