

Waltz of Petunia

Waltzing along the river pausing, the night's glow rising, we dance & sing
eager we're laughing to the sky, we sway & dive, in the city streets
Lawless among Firenze life, forgetting strife of yesterday
Watching Petunia's soft face smiling, bouncing lively at adventures gate.

Bright we run down city--
Streets so old, we dance so--
Free to Rome, for Love oh
Soon we'll dream again.

Magic they advertise it rises, our young hearts livened in old country,
Exploring each other's lives to find, our bodies tight, this Italian game,
Sharing our stories, sharing sites, city bright from Uffizi,
David's perfection echoes light we move all night, this song we feel.

Bright we run down city--
Streets so old, we dance so--
Free to Rome, for Love oh
Soon we'll dream again.

Play, Stay, Forget the pain of yesterday
Run, Free, Everybody run with me
Play, Stay, Forget the pain of yesterday
Run, Free, Everybody run with me

Live again reminded; the walls are down your finding.
Life's about the wandering, Adventures for the finding.
Bright we run down city--Streets so old, we dance so--
Free to Rome, for Love oh, soon we'll dream again.
